Helsingborg's Wakf

When dreams become reality

@helsingborgsmoske

The city of Helsingborg

Helsingborg is located on the southwest coast of Sweden with a population of 150 thousand, 20 thousand of them belong to the Islamic faith. The number of Muslims in Helsingborg is continuously increasing with a relatively small number of existing Islamic centers. Thus, tremendous efforts have been put forth to build an Islamic Center (Wakf) that represents the Islamic faith and caters to the spiritual needs and ambitions of the Muslim population in Helsingborg.

Importance of the project

- The growing Muslim population in the city requires a larger space for prayer, education, and various activities.
- Providing a safe environment for youth and new Muslims.
- Appropriate representation of the Islamic faith and promotion of religious freedom.

The entity in charge of the project

- Established in 1994, Helsingborg Mosque Wakf is the city's largest Islamic organization (2,000+ members), with strong ties to local authorities and other community centers.
- The organization acquired a 10,000 m² plot for the project. The planned Islamic Center will occupy 3,600 m² of this space.
- This anticipated project has spurred the community to develop a plan to secure the necessary to fulfill a long awaited dream for all Muslims in the city.
